

your name, please:

English 110.01 midterm assessment

Please tell me the following things about class and your part in it, so that I can help this class succeed in its goals.

1 Please read the description of the course goals as they are listed on the course website. Do you feel we are proceeding towards these goals? What is so far proving most useful? What would you change, and why?

2 What are you learning in class? What more do you think you could learn in class? How can class be structured to help you learn what matters to you?

3 How do you define your responsibilities to this class? How are you living up to those responsibilities? What are your greatest contributions to class? What can you improve? How can the structures of class better help you take more responsibility in your class work?

4 How do you define my responsibilities as teacher of this class? Am I fulfilling those responsibilities? What more or different can I do to help you fulfil the work of this class? What more or different can I do to help you understand the work I am asking you to do?

5 What suggestions do you have for how we can improve class, to help you learn more, and with pleasure (aside from food every day...!)?
